April 5, 2013

This notice contains important information about the following:

- **2013-2014 Supplemental Water Update**

Supplemental Water Update

The District received timely applications for Supplemental Water totaling approximately 263,000 AF on 384,000 acres. At this time, the District anticipates that it will be able to acquire 125,000 to 135,000 AF of water supply to partially meet the requests from water users.

Based upon acquisition totals of 125,000 AF and 135,000 AF, District staff estimates that water users will receive up to 0.355 and 0.385 AF/acre, respectively, or a lesser amount if requested, on the irrigable acres represented by the water user account listed on the application. These amounts are only an estimated projection of the annual Supplemental Water allocation based on current information available.
