

**2026-2027 AGREEMENT TO REQUEST PAYMENT
PLAN FOR SUPPLEMENTAL WATER**

Water User Name _____ Email Address: _____

Telephone No.: _____

WWD Account No. _____ Amount Requested (AF) _____

I, herein referred to as "Water User," hereby request that the District consider a payment plan for the advance payment required for the acquisition of Supplemental Water requested for the March 2026 – February 2027 Water Year and agree, pursuant to Section 10 (Advance Payment) of the District's Terms and Conditions and as a condition of the furnishing of any agricultural water during that water year, and in accordance with the District's Regulations, policies, and applicable agreements, as follows: To make advance payment for the acquisition costs of water transferred into the District from other agencies, pump-in water, or any allocation resulting from the District being able to obtain other water prior to the allocation of such water, in an amount and by a date established by the General Manager.

1. To accept that the General Manager may, in the District's sole discretion and consistent with Section 10 of the Terms and Conditions, offer a payment plan for such advance payment, provided that the Water User is not subject to a Water Service Deposit (WSD). Any account subject to a Water Service Deposit is not eligible for a payment plan.
2. To comply, if a payment plan is approved, with payment plan terms that provide for equal payments over no more than three (3) months, include an interest component equal to the District's rate of return available on its investment vehicles, with interest accrued daily on the outstanding balance, and require that payments be made prior to each increment of Supplemental Water being moved into the Water User's account from any transfer or other District acquired water; provided that the Water User may pay the outstanding balance in full at any time without penalty.
3. To acknowledge that the District will not move Supplemental Water into the Water User's account unless and until all advance payments or approved payment plan installments required at that time have been received by the District.
4. To accept that failure to timely make any payment required under an approved payment plan may result, at the District's sole discretion, in the withholding, reduction, or withdrawal of Supplemental Water and a corresponding reduction in the outstanding Supplemental Water request.
5. To pay conveyance-related costs associated with Supplemental Water upon water use, except where advance payment is otherwise required pursuant to the District's Terms and Conditions.
6. To comply with the Terms and Conditions of the Westlands Water District Agricultural Water Service Agreement, including Section 10 thereof, the Regulations for the Allocation and Use of Agricultural Water Within Westlands Water District, and the Regulations for the Groundwater Allocation Program and Use of Groundwater Within the Westside Subbasin, all of which are incorporated herein as though set forth at length.
